Foreword from the Author

"I can see everything, I can be in the music..."

King Gizzard's Phantom Island Tour in the States was one for the history books! The band made their way across the country, performing *Phantom Island* in its entirety with famous orchestras while also launching into reinvented fan favorites and extensive jams on par with some of their best work. It all ended with Field of Vision, a monumental celebration of all things Gizz in Buena Vista.

This tour is shaping up to be one of their most unique. Gizzard will bring their orchestral show to Europe for a couple of dates, playing with local orchestras while Chad Kelly conducts. For the rest of the dates, however, the band will harness the power of Nathan in multiple rave sets, the first since San Francisco last year. Venues range from historic locations like Royal Albert Hall and Gasometer to new and innovative spaces like Aviva Studios and Poolen. We're also getting Gizzard's first gigs in Den Bosch and Gdańsk. It's not a long tour but it's sure to be an exciting one!

This guide would not be possible without the KGLW.net team:
- Felicia @ToraTapes
- Grey @Grey_locke
- Jamie
- Max @BVBootleg
- Rattle
- The Wicked Witch of Woo

Special thanks to Eric "Rowdy" for coming up with the idea for a tour guide. We'd also like to thank Weirdo Swarm for compiling meetups and jorclank for the back cover art.

Conductor introduction:
Chad Kelly is a prestigious conductor. He studied at Cambridge University and the Royal Academy of Music, gaining titles at Trinity College and the Royal Academy as well. He moved to Australia in 2021, working with the Australia Chamber Orchestra and Opera Australia while also collaborating with European orchestras. Kelly was an important figure in the creation of *Phantom Island* as he wrote the orchestral arrangements heard on the album.

Opener introductions:
Bullant: Joey's side project has been going since 2019 when it was first teased in the "Mars For the Rich" video game. Since then it's been a consistently exciting project with two studio albums and a host of singles. Bullant live gigs are rare and feature a mix of club and house tracks, alongside one or two originals.
Recommended listening: Late Life Circ (2023)

Kit Sebastian: Kit Martin and Merve Erdem formed Kit Sebastian in 2018, blending a variety of influences from around the world. Anatolian rock, French chansons, psychedelia from South America... all with vintage production right from the '70s.
Recommended listening: Melodi (2021)

Maddie Ashman: Coming from London, Maddie Ashman has made a name for herself through microtonal exploration and alternate tunings. Her music is both beautiful and haunting, ranging from microtonal acoustic ballads to abstract vocal compositions. She's even made a sample pack for non-commercial use!
Recommended listening: otherworld (2025)

Mera Bhai: Karthik Poduval is the drummer of the Flamingods, and was a former member of Daytimers. While this has kept him busy, he's also been a DJ. His first release, the *Futureproofing* EP, came out five years ago, and since then he's continued to experiment in the realm of house music.
Recommended listening: A Phool In Love (2023)

O.R.B: O.R.B has been a fan favorite name within Australia's psychedelic rock scene since 2014. Their fuzz-heavy, spacey sound is part Black Sabbath and part Olivia Tremor Control. They've released four studio albums under multiple labels and have been longtime collaborators with King Gizzard since the Flightless days (they even appear on the *Chunky Shrapnel* closer "A Brief History of Planet Earth").
Recommended listening: Tailem Bend (2024)

KGLW.net

Who We Are & What We Do

KGLW.net started in October of 2022 after our founders saw the band, wanted to check show stats, and did not have a great site to do so. Now, three years later, we have had hundreds of fans contribute their knowledge, skills, time, and passion into making our site the most complete fan site for all things KGLW.

Setlists:

KGLW.net contains the most up-to-date catalog of every King Gizzard And The Lizard Wizard live show, including detailed and annotated setlists which provide in-depth stats for you to enjoy. KGLW.net allows you to:

- Create an account to track your stats and submit show reviews
- Search for show stats by location, tour, & song
- Find teases, debuts, banter, and bustouts
- Read through our notable versions, or performances that stand out from the rest
- Sort songs by date played or track length

Blog:

Our blog The King Gizzette was introduced two months after the site's launch and has been home to numerous write-ups from KGLW.net volunteers. These include show recaps, interviews, tape recommendations, community spotlights and Gizzverse deep dives. It's also home to updates on our site and our preservation efforts, such as the discovery of the second oldest fully recorded show.

Gizzverse Guide:

The beginner's guide to KGLW. This is not the first or last dedicated guide for getting into King Gizzard. It was originally developed on the Boiler Rhapsody music blog and discretely hosted there while sourcing collaborators. Once Boiler Rhapsody's editor/author found kglw.net, it was quickly realised that both projects were suited for each other and merged.

Song Histories:

The song histories project may be the most comprehensive guide to the band's music that has ever been published. Site writers TimelandIsWacky, W.B.T.G. Slinger, and Rattle took up the task of preserving the stories of the band's discography by writing detailed pages for every song the band has written or performed. These include facts which were previously unknown until the project started. To read a song history, click the song that you want to learn about and then the "history" tab.

Biography of Gizzard:

Written by site writer W.B.T.G. Slinger, the band bio is a comprehensive history of the group starting from Stu's first experiences with music up to the current day. Chapters are still being released so it's one to keep an eye on!

Gizz Tapes:

Gizz Tapes is an interface for all of the fan-made recordings and tapes on the Internet Archive that combines the audio with data from our site. You can access it on the website or use the Android app.

KGLW.net Forum:

Our forum has been running since the summer of 2023. On it are threads for a bunch of relating topics including (but not limited to) Gizzard news, ticket exchanges, related artists, and album discussion. The forum also hosts live threads for King Gizzard shows where you can join in and discuss as the band plays.

Han-Tyumi:

Han-Tyumi, created by volunteer developer cwar, is an OpenAI-powered chatbot which is all about King Gizzard. Start by choosing if you have an "interview question" or a "setlist question" and have a chat with our artificial intelligence overlord! Source code and technical details can be found on Han-Tyumi's blog post.

The Book – Tour Guide
2025 European Fall Tour

Make photocopies of essential documents like passports so that if they are stolen/go missing, you can bring the copy to the embassy and get things sorted out. It's also worth having a paper copy of your booking confirmations as well as written addresses of where you're staying.

A majority of the stops on this tour are part of Europe's Schengen Area, which allows free travel between its countries. The exception to this is the United Kingdom. For the Schengen area, your passport must be valid for at least three months after the date of your departure. The passport must also have been issued in the last ten years. You can stay up to ninety days within the area in a one hundred and eighty day period. For anyone going to the United Kingdom, you'll need a valid passport and an ETA. Carry your passport with you to each country and be ready to explain your purpose of travel in the unlikely case of any questioning. Also be aware of the new EES system being implemented, which may cause delays. More info can be found on the US Department of State's website and the UK Government's website.

In the case of an emergency, call 112.

Concerned about security or demonstrations in the area? You can use programs like the State Department's Smart Traveler Enrollment Program to keep up to date with what's going on at your destination.

If you're a member of the LGBTQ+ community and wondering if you'll be safe in certain countries, check out the Rainbow Map. It's an interactive website which goes over what protections do and don't exist in each location.

If you're concerned about being stopped at the border coming back to the States, check out the ACLU's "know your rights" guide as well as their guide on phone searches. The Intercept also has a good guide. It's worth noting that if you have an X marker on your passport, you may encounter difficulty after a recent CBP change. You have a right to travel as the change affects booking systems.

Looking to connect with fans on this tour? Check out the Eurogondwanaland Discord server. Click the link or scan the QR code below and join!

General Tour Tips:

- If you see something, say something. Alert security if someone is overstepping their boundaries, ignoring someone's consent, or has had a little too much anything...
- If you're going to the mosh pit, brush up on some mosh pit etiquette to ensure that everyone is safe and having a good time. We also suggest you read how to stay safe in a crowd crush scenario.
- Poster designs, quantities, and details are announced the day of the show. Usually there is a standard poster and a far more limited foil edition. Both typically sell out within thirty to sixty minutes after the doors open.
- Bring earplugs to avoid hearing loss. Noises above 100 db can alter your hearing after fifteen minutes.
- The band's official live streams typically start ten to fifteen minutes before showtime and can be found on their YouTube channel.
- More can be found on our Anatomy Of A King Gizzard Show blog post.

Today in King Gizzard History

- November 9th, 2013 @ The Corner Gallery, Perth, AUS
- November 9th, 2024 @ Arizona Financial Theatre, Phoenix, AZ, USA

Local Attractions

The most popular museum in Gdańsk is the Museum of the Second World War, which goes through the history of the conflict. If you want something more lighthearted, check out the Muzeum Bursztynu, or the Amber Museum, which showcases a wide assortment of amber-related items (Gdańsk is the amber capital of the world, after all). If you're looking for something strange to see, check out the ruins at the bottom level of Hala Targowa which date back to 1170. Make sure to go to bakery Jan de Groot which is known for its chocolate profiteroles. If you go in the morning they're made fresh right in front of you, but there might be a queue.

Food & Drink

There will be multiple food vendors at the festival. You could eat and drink before going but the closest spot is a sixteen-minute walk away, so keep that in mind. Pierożkarnia is a dumpling spot across the train tracks from AMBEREXPO (though you'll probably need a ride there). Pierogarnia Mandu has multiple locations and has some highly rated pierogies. Gdański Bowke is a brew pub that specializes in traditional food. Manna 68 and is a well-regarded vegan spot downtown.

Orchestra Introduction

The Polish Baltic Philharmonic has gone by a few names since its founding in 1945, although they've always paid tribute to Chopin with their full name being the Polish Baltic F. Chopin Philharmonic. The orchestra has performed tributes to composers such as Penderecki while collaborating with the likes of David Gilmour and Jean-Michel Jarre.

Recommended performance: "High Hopes" by Pink Floyd (conducted by Zbigniew Preisner, with David Gilmour)
